NO PREP

Print the coloring pages and make copies for year long use!
Great for quick activities that can be easily prepped and given to students!

Check out what other teachers have said:

This has been such an engaging way to work on basic skills with my students. I love that I can work on foundational skills while building their fine motor skills at the same time. - Rachael G.

My students continuously stay engaged and interested in activities that are differentiated and unique. As a teacher, I love seeing them be successful and engaged. - Elyse H.

My students love Bingo dobbers! This helps them make connections and help them form the letters in a different and unique way. - Sara D.
