THIS RESOURCE IS DIGITAL

Pre-created Google Forms to **edit** and best fit your student needs.

Send to yourself and immediately collect data immediately

Easy to track data collection on the go with any device (laptop, iPad, or phone)

FAQ:

Does this resource include completed examples?

No, due to the digital nature of Google Forms and how TPT has you make a copy in your own drive, it does not have examples for you.

If you would like to learn more about Google Forms, you can email me at:
heather@fullspedahead.com to set up a 1:1 meeting.

FAQ:

Is this set for more experienced data collectors?

It can be used for **any level of data collector!**

The forms are ready to go with just you inputting student and staff names. If you are more experienced, you can tweak the questions to get more specific details in your data collection process.

Check out what other teachers have said:

"With the use of this resource I have been able to keep files longer and pull them wherever I am. I am also getting more reliable data because my classroom staff is actually taking it. No one is forgetting clipboards and these can be used right with your phone." – Jennifer

"Great bundle with every form you'll ever need! It makes data collection so easy, graphs can be created, allows you to easily pick up on trends. Takes the guesswork out of creating forms, and allows you to modify them to suit your student needs/goals." – Dale

Check out what other teachers have said:

"An absolute godsend. I have trouble keeping track of all the paper necessary to collect data and having an easy-to-use digital form makes it so much easier. I also like how easy it is to have paraprofessionals and other service providers contribute data as long as they know how to use Google Forms" – Hannah
